

## IVY YOCK – CERAMIC ARTIST/SCULPTOR – RETROSPECTIVE EXHIBITION

Not only known for her wonderful carved Deco-inspired pots and wildlife sculptures, Ivy also excelled in Bark Painting, Copper Relief Sculpture, Pen-and-Ink and Life Drawing. Ivy was amongst the founding members of the earliest incarnation of the Gold Coast Potters' Association in the 70's. Rather than concentrate on glaze as the most important aspect of her work, Ivy developed her ceramics in a highly individual direction where her pots became the 'canvas' for intricately carved pictorial images. It was not long before Ivy developed a keen interest in wildlife sculpture where she won several awards over the years, and it is in this genre that most of us are familiar with her ability, expertise and keen eye for detail. Sadly Ivy, now in her 92<sup>nd</sup> year, is no longer able to indulge in her life-long desire to create her wonderful works of art. For anyone wishing to view or purchase a piece of her highly-collectable work, this Exhibition is a 'must-see', as it is probably the last showcasing of Ivy's delightful pieces.
